

RECRUITMENT

REFERENCE NUMBER:	ASOPPI0820
JOB TITLE:	Assembly Operative (Pipe Section)
LOCATION:	Denham, Middlesex

Martin-Baker is the world's leading manufacturer of ejection seats and related equipment.

It is the only company that can offer a fully integrated escape system that satisfies the very latest in pilot operational capability and safety standards. Martin-Baker offers a complete 'end-to-end service', from helping the customer to establish operational safety and escape requirements, including design, development and qualification, to on-going support throughout the entire service life of the aircraft.

DEPARTMENT NAME:	Assembly
-------------------------	----------

JOB DESCRIPTION

A vacancy has arisen for an Assembly Operative in the Pipe Section within the Assembly department at the Denham site. The role holder is responsible for undertaking a variety of processes including but not limited to the bending/forming and inspection of pipes to fit various form blocks to the quality standards supplied as required by the production schedule such that the efficiency and effectiveness of the department is maintained at the highest level.

AREAS OF RESPONSIBILITY:

- To accurately interpret engineering drawings and work instructions/build plans so that part numbers, drawing issues, relevant ADR's, process specification, and finishes can be accurately identified and applied.
- Ability to use basic measuring equipment
- Experience in using a variety of assembly/fitting tools and equipment.
- Undertake self-inspection and quality checks.
- Carry out 5S duties and participate in continuous improvement initiatives.
- Ensure all relevant Health and Safety regulations are adhered to at all times including Risk Assessments, COSHH Assessments, SSW's arising from RA's/COSHH and Material Safety Data Sheets
- To monitor the fitness for purpose of tools and equipment and provide for their replacement and/or recalibration so that tools and equipment are in good condition and suitable for purpose at all times and in order to avoid damage of goods, property and harm to oneself or other employees
- To report any dangerous practices and other dangers such as faulty equipment to local supervision so that all operations are safe at all times.
- To undertake any formal training in-house or external relevant to the job and adopt modern practices within the Department

Further Duties / Responsibilities:

- Hand fit pipes to make the form block and make any adjustments necessary.
- Using work cards and specifications cut pipes using an electric saw, set and operate pipe bending machines in accordance with the specifications.

EDUCATION & QUALIFICATIONS:

- Good standard of education GCSEs including English and Maths

SPECIFIC / TECHNICAL SKILLS

- Familiar with engineering hand tools.
- Basic understanding of measuring equipment
- SAP experience desirable
- Use of drilling machines and gluing bonding experience desirable

PERSON SPECIFICATION:

- Manual dexterity
- Good interpersonal skills – Team Player
- Physically fit, reliable and conscientious
- Basic administration routines
- Willing to learn

KNOWLEDGE & EXPERIENCE

- General industrial cleaning experience gained from working in a manufacturing environment.
- General Health & Safety awareness working within a manufacturing environment.

For all successful candidates, Martin-Baker will undertake background security checks. As part of this, we will need to confirm your identity, employment history and address history to cover the past five years as well as your nationality, immigration status and criminal record. For positions that require Security Clearance, the successful candidate must hold or be willing to obtain security clearance up to the relevant level for the role.
